Profile

IT Service Engineer with hands-on experience across Microsoft 365, Active Directory, Microsoft Entra ID, Windows infrastructure, networking, and endpoint security. Administers user access, endpoint controls, asset records, patching, and Windows environments. Troubleshoots infrastructure, connectivity, and endpoint issues while improving IT visibility, security readiness, and repeatable technical processes.

Technical Skills

Infrastructure & Identity: Microsoft 365, Active Directory, Microsoft Entra ID, Microsoft Azure, Windows Server 2022, DNS, DHCP, Group Policy, VLANs, Wi-Fi, remote access, patch panels, port mapping.

Security & Operations: Endpoint security, patch management, Cyber Essentials readiness, ManageEngine Endpoint Central, ADManager Plus, PowerShell, Snipe-IT, asset management, access reviews, technical documentation.

Professional Experience

IT Service Engineer | Swagelok Central | Jul 2025 – Present

- Administer Active Directory and Microsoft Entra ID for onboarding, offboarding, access changes, groups, and account security.
- Manage Microsoft 365, Windows endpoints, remote access, permissions, and 1st/2nd line troubleshooting.
- Control endpoint security, patching, asset inventory, and device policies with ManageEngine Endpoint Central.
- Troubleshoot DNS, DHCP, VLANs, Wi-Fi, remote access, and physical network connectivity.
- Implement security controls, access reviews, remediation actions, SOPs, and documentation for Cyber Essentials readiness.

Shipping Auditor | Amazon | Sep 2018 – Sep 2024

- Monitored shipment data to identify discrepancies and maintain accuracy.
- Investigated device and system issues with IT and Operations teams.
- Trained associates on handheld devices and internal systems.

IT Technician | DUEPUNTOZERO | Jan 2017 – Aug 2018

- Built, configured and deployed Windows desktop systems, including BIOS setup, OS installation, driver configuration and peripheral setup.
- Diagnosed and resolved hardware, software, user profile and system performance issues across desktop environments.
- Configured user accounts, IP settings, DNS and LAN connectivity.

Projects

Full project write-ups, technical notes, and sanitised examples: hawkode.github.io

Windows Server 2022 Domain Controller Migration

- Built a Windows Server 2022 domain controller with AD DS, DNS, DHCP, OU structure, replication checks, and Windows 11 Pro domain-join preparation.
- Migrated 50+ user accounts using ADManager Plus, aligned Active Directory attributes with Microsoft Entra ID identities, migrated shared data with Robocopy, and deployed a PowerShell domain-join script through ManageEngine.

Snipe-IT Asset Inventory & Site Tracking

- Built a structured Snipe-IT inventory covering devices, users, accessories, locations, lifecycle status, and multi-site visibility.
- Improved onboarding, offboarding, audits, stock checks, device assignment, and hardware lifecycle management.

Network Cabling & Port Mapping

- Traced patch panel ports to wall sockets, labelled network points, tested connectivity, and documented port-to-location records.
- Improved physical network visibility for troubleshooting, hardware setup, office moves, and infrastructure planning.

Additional Technical Notes

- OpenVAS vulnerability scanning, Splunk log analysis, Windows Defender Firewall rules, MFA notes, access control notes, patch management workflow, vulnerability management workflow.

Education

BSc Computer Science | Arden University | 2024–2025

HND Digital Technology | GBS | 2021–2023

Certifications

- CompTIA A+
- CompTIA Network+
- CompTIA Security+
- Cisco CCNA
- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Security, Compliance, and Identity Fundamentals
- TryHackMe Cyber Security 101
- CompTIA CSIS
- CompTIA CIOS
